

ITW Construction Products

ITW's Construction Products segment is a branded supplier of innovative engineered fastening systems and related consumables and software. These products are uniquely specified for a variety of materials, including wood, concrete, steel, and engineered lumber. Serving the residential, commercial, and renovation markets, ITW's construction products businesses and brands hold positions in niche markets where ITW technology can address customers' unique needs like higher global standards for safety and energy efficiency as well as the growth of off-site construction projects. With presence in a variety of end-use applications and markets, ITW construction products are focused on value-added opportunities around the globe.

This web site is provided to satisfy the virtual patent marking provisions of various jurisdictions including the notice provisions of 35 U.S.C. § 287(a).

The following list of ITW construction products and associated U.S. patents may not be all inclusive. Other ITW construction products not listed may be protected by one or more patents. Additional patents may be pending in the U.S. and elsewhere.
